For me

Shirts - CE395 - Patterns of front & back of tie - not to be copied for anyone

Make Marked 1 - has neck not into lining. (2) back no mark at all (no part on back collar but grey facing)

CE394 - Patterns of Back + cuffs + sleeves

(3) back - shows hole - doesn't say if inside or outside or which is up. Which point up?

(4) sleeve + cuffs - slots at cuffs - identical with those on shirt. To mark button hole + button, button cut off. On Button side, slit goes to seam on hole side, to seam, possibly further, seam allowance

(5) CE394 + CE395 Patterns of front collar of shirt + the Tie fold in to hide slit in front but on back side of collar pos. part of slit can be seen
